# Suction Grab Rails

*The range of Suction Grab Rails are instant fixtures to provide support and assistance in most areas.*

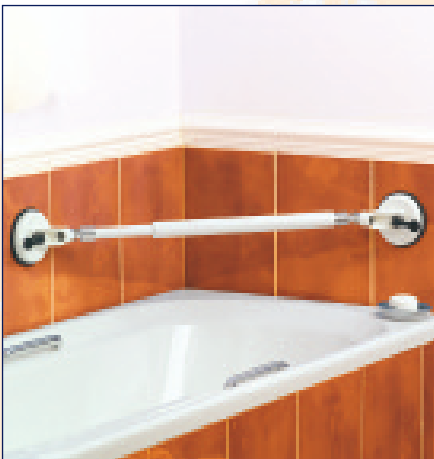

Easy to attach and detach the Grab Rail features two large suckers that when engaged, form a vacuum tight seal.

To create the vacuum simply depress the levers. To release, raise the levers and the vacuum seal will be broken. The ease of this operation makes it the perfect item for use when travelling.

The Grab Rail eliminates the need for drilling holes, leaving your surfaces intact. You will never have to worry about a grab rail being in the wrong position again and can simply move it as and when your need changes.

The Grab Rail can be used:

- To assist with stability or when standing up
- For use by carers and those with restricted mobility
- For use when travelling
- For determining the ideal position of permanently fixed grab rails
- As a tool for Occupational Therapist assessment purposes
- Maximum length adjustment of 250mm to 300mm

*Other products in the Extra Range*

○ **The U-Grip Handrail Support**

An ingenious design to offer assistance when climbing or descending stairways.

○ **The Bedgate - Bed Rail**

The bed grab rail that locks in place at the side of a divan bed, offering support when getting into or out of bed.

○ **Accessories**

A range of accessories is available including childlocks and detachable handle for easier opening. Call our sales advice team for more information.
